not your pocket!

HEADWEAR STYLES

This is your guide to our headwear styles. We group our headwear product line into style categories that are based on the general construction, profile and shape of each model.

5 PANEL

PAGE 5

The 5 panel is made with a flat front panel making it the perfect construction for models with a printed front panel. The seamless front panel also makes it one of the easiest cap styles to embellish.

BEANIES

PAGE 27

Also commonly referred to as knits, this knitted headwear style is designed to be worn as a fashion accessory. Clip labels or small patches are the best embellishment methods for this headwear style.

6 PANEL

PAGE 9

The Classic 6 panel baseball cap is as authentic as the game itself. Available in a wide range of profiles and fit, this traditional cap style is the go-to look for players, fans, and outdoor enthusiasts.

HATS

PAGE 33

Hat styles are designed for maximum protection from the elements and feature a 360 degree brim. Well suited for applique or small patch embellishments.

7 PANEL

PAGE 25

This unique and modern looking style offers a large seamless front panel with a curved top seam. The large seamless front makes this style ideal for all types of embellishments.

POORBOY

PAGE 38

As a part of the flat cap family, Poorboy caps have a similar look to Newsboy caps. However, these caps have a leaner body than the newsboy caps and they omit the button at the top.

VISOR

PAGE 39

Visors are designed to shield the sun from your eyes and keep your head cool. Small, simple embellishment designs work best on this style of headwear.

ACCESSORIES

PAGE 40

Our versatile multi-functional headwear effortlessly adapts to your lifestyle. From headbands to face masks, these accessories offer endless possibilities for wear and use.

CAP PROFILES AND FUNCTIONS

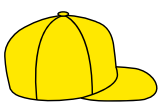

STRUCTURED

A structured cap typically refers to a type of headwear that has a well-defined and rigid form.

UNSTRUCTURED

An unstructured cap is a type of headwear that lacks the rigid internal support and defined shaping found in structured caps.

FLAT PEAK

A flat peak cap is a type of headwear known for its straight and flat bill. Crafted for chic urban appeal.

CURVED PEAK

A curved peak cap, often referred to as a baseball cap, a classic and widely popular style of headwear known for its rounded bill.

HIGH FIT

A High Fit cap has a crown that sits higher on the head compared to traditional or lower-profile caps.

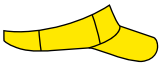

MID FIT

Mid-fit caps strike a balance between the casual look of low-profile caps and the prominent appearance of high-profile caps.

HAT

This type of headwear can offer a versatile and stylish option, providing sun protection while maintaining a casual appearance.

VISOR

The visor cap offers a sleek, minimalist profile with its open-top design and curved peak, providing shade and ventilation for outdoor activities while maintaining a sporty look.

FADE RESISTANT | BREATHABILITY | MULTI-SEASON WEAR | SWEAT-WICKING FABRIC | VERSATILITY/DURABILITY | FLOATABLE/PACKABLE

QUICK DRY | THERMAL REGULATION | WATER REPELLENT | U-FORM VISOR | REFLECTIVE ELEMENTS | SUN PROTECTION

EMBELLISHMENTS

This is your guide to the embellishments we offer. Each embellishment offers unique features and the same "Quality in Every Stitch" guarantee that you expect from all products.

EMBROIDERY

PAGE 45

The classic look of direct embroidery is a proven embellishment method commonly used on baseball style caps. You can also opt for this embellishment in 3D.

PATCHES

PAGE 48

A traditional embellishment method reinvented and is now the go to look for style conscious headwear buyers. Patches are available in sublimated, woven, rubber, print, leather or embroidered options.

LABELS

PAGE 52

Twill, felt, woven, printed appliques or printed satin labels offer a stitched-on look, perfect for unstructured caps and lightweight fabrics, providing subtle branding through options like woven or leather labels.

***DISCLAIMER:** MOQ for labels = 1000x

TRANSFERS

PAGE 53

This modern embellishment method delivers a very clean look and is ideal for complex and multi- coloured designs. Great for our lightweight performance cap styles.

SWING TAGS & STICKERS

PAGE 55

Enhance your headwear with our quality swing tags for style and information and add flair with durable stickers for personalized expression.

***DISCLAIMER:** MOQ for swingtags = 1000x

FLOCKING

PAGE 57

Flocking is a unique heat transfer vinyl that gives your design an added dimension, given its raised, soft and textured suede/velvet feel. From printable to cut-out, flocking is cost effective and can be heat transferred onto any headwear of your choice.

SCREEN PRINT

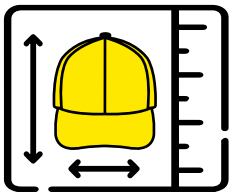

PAGE 58

Screen printing on a cap is a process that uses a screen to transfer ink onto the fabric, creating detailed and vibrant designs.

***DISCLAIMER:** We only screen print on panels not on made up caps or hats

CAP + BRANDING = MAGIC

EMBROIDERY

The rich look of direct embroidery is a proven embellishment method commonly used on baseball style caps. Whether it's your own custom logo or one of our stock name drops, mascots or team letters, our direct embroidery will make your cap stand out. We also specialize in raised, 3D embroidery. Our embroidery machine can run 180 degrees.

- Best for bold designs with a medium level of detail.
- Available in standard or raised 3D. Not all designs can be produced in 3D.
- Embroidery size is dependant on the headwear

PATCHES

EMBROIDERED PATCH

A traditional and proven embellishment method reinvented is now the new look for style conscious headwear buyers. Embroidered patches deliver a higher level of detail than direct embroidery and give your cap a classic look.

- Simple shape patches have a embroidered edge and are machine sewed to the cap, complex shape patches have a satin stitched edge and are heat pressed to the cap.
- MOQ for patches is 50 unless customer supplied.

WOVEN PATCH

Woven patches can deliver a higher level of detail than embroidered patches and will give your cap a slightly more refined look. Available as a patch or label.

- Simple shape patches have a embroidered edge and are machine sewed to the cap, complex shape patches have a satin stitched edge and are heat pressed to the cap.
- MOQ for patches is 50 unless customer supplied.

PATCHES

SUBLIMATED PATCH

A new twist to a classic embellishment method. Sublimated embellishment is ideal for reproducing multi-colour, complex logos with small detail. Available as a patch or label.

- Simple shape patches have a embroidered edge and are machine sewed to the cap, complex shape patches have a satin stitched edge and are heat pressed to the cap.

RUBBER PATCH

Our high quality rubber patches will give your cap a very bold and technical look. This embellishment method adds an amazing level of dimension to any design. Ideal for multi-coloured logos with a moderate level of detail.

- Available in stitch applied simple shapes, or heat applied complex shapes.
- MOQ for rubber badges is 50.

PATCHES

SCREEN PRINT PATCH

Screen printing on a cap is a process that uses a screen to transfer ink onto the fabric, creating detailed and vibrant designs. It's a durable method for customizing caps with graphics, logos and text making it a popular choice.

- Available in stitch applied simple shapes, or heat applied complex shapes.
- MOQ for screen print patch is 50.

DTF PRINT PATCH

Digital transfer film printed patches on caps involve printing onto film, cutting around the design, and heat-pressing onto fabric, which is then laser-cut, embroidered, and stitched onto the cap.

- Available in stitch applied simple shapes, or heat applied complex shapes.
- MOQ for DTF patch is 50.

PATCHES

LASER ENGRAVING

Laser engraving embellishment adds a touch of timeless elegance to your accessories, with intricate designs etched directly onto premium leather for a lasting impression. Crafted with precision and attention to detail, each engraving adds a unique and personalized touch to elevate your style.

- Best for complex designs with a high level of detail.
- Simple shape appliques (circles, rectangles, etc.) are stitched to the cap.
- Complex shape appliques (irregular shapes) are heat press applied to the cap.

DEBOSSED LEATHER

Our debossed leather applique delivers a classic, very high end look with your design stamped into the leather. Offered in genuine or faux leather and available only in simple shapes for direct stitching to your cap. Best for designs with a moderate level of detail.

- Designs are stamped into the applique with imprint color of black, brown, dark brown, or tonal (no ink).
- Simple shape appliques (circles, rectangles, etc.) are stitched to the cap.

LABELS

WOVEN LABEL

Woven label is a very clean and refined look that matches well to unstructured cap styles and lighter weight fabrics.

- Simple shapes are necessary to tack down the label.
- Labels are stitch applied to the cap with a running stitch tack down.
- MOQ for labels is 300 unless customer supplied.

PRINTED LABEL

Printed and Sublimated labels provide a clean, simple look. Printed labels work best in one-colour application. Sublimated labels work for all complexities of logos. This type of embellishment works well with unstructured cap styles and lighter weight fabrics.

- Simple shapes are necessary to tack down the label.
- Can be used with multiple layers of fabric for a more dimensional look.
- MOQ for labels is 300 unless customer supplied.

TRANSFERS

FULL COLOUR TRANSFERS

A more detailed alternative to Screen Printed transfers that is heat pressed directly to the cap. From one colour logos to photographic prints, designs are free floating and can be applied over a seam.

- Full Color Transfers sit on top of the fabric with a slight relief.
- Weather and outdoor conditions will affect the durability and life of the embellishment.
- Best when kept to one or two colours.
- T.P.U Matte, PVS and metallic.

T.P.U. TRANSFERS

T.P.U. Transfers is the latest innovation in transfer printing technology. It brings a new dimension to transfer printing by combining durability, flexibility, and vibrant color reproduction like never before.

- T.P.U. Transfers are designed to withstand the test of time.
- Unlike traditional transfer methods, T.P.U. Transfers offer unparalleled flexibility.
- It also allows for easy application.
- It also allows for textured finishes.

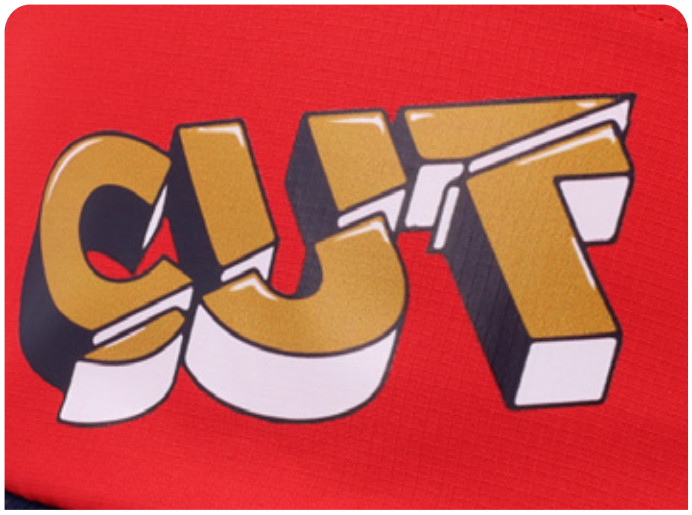

TRANSFERS

D.T.F. TRANSFERS

DTF, or Direct-to-Film printing, stands out as a revolutionary full-color printing technology renowned for its capacity to imprint intricate designs onto specialized films designated for transfer onto caps. This advanced printing method epitomizes efficiency and versatility, making it an optimal choice for various applications across different industries.

At the heart of DTF printing lies a sophisticated heat transfer process that ensures impeccable results and exceptional durability. Unlike conventional printing techniques, DTF utilizes specialized films as intermediary carriers for the designs before they are seamlessly transferred onto caps. This distinctive approach not only facilitates precise rendering of intricate details but also ensures vibrant color reproduction that rivals traditional silkscreen prints.

TRANSFERS

SILICONE TRANSFERS

This modern embellishment method provides a very high end look and raises your logo or design to a new level. Delivers a durable embellishment and looks great when matched with any of our technical cap styles.

- Silicone Transfers are heat press applied directly to the cap and have a matte finish.
- Will range in thickness between 0.5 – 2.0 mm.
- Bold designs will be thicker than designs with small detail.
- Best when kept to one or two colors.

SUBLIMATION

A modern and clean look, great for multi coloured logos and designs with a high degree of detail. Sublimation prints can be used only on a white, seamless foamie front panel cap style.

- Sublimation prints are heat transferred.
- Weather and outdoor conditions can affect the embellishment, but is more durable than a full colour transfer.
- Sublimation can be done on white, off-white, khaki and stone.

SWING TAGS & STICKERS

SWING TAGS

Elements attached to headwear through a hanging tag, adding a touch of personality and sophistication to the item. These embellishments come in various forms, such as metal charms, beads, fabric patches, or embroidered designs, each reflecting the brand's aesthetic or the theme.

They serve as eye-catching accents that not only enhance the visual appeal of the product but also communicate its uniqueness and quality. They provide a subtle yet impactful way to elevate fashion pieces, making them stand out and leaving a lasting impression on the wearer.

STICKERS

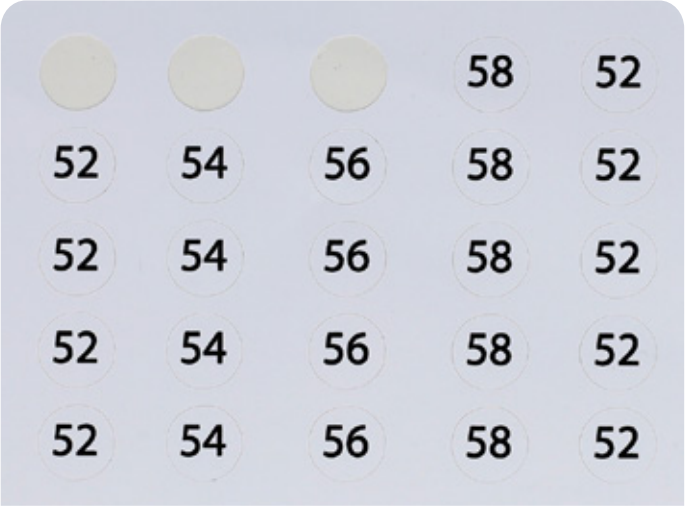

Stickers in our headwear catalogue serve as vibrant accents, adding a splash of personality and flair to your favorite caps and hats. From whimsical illustrations to bold typography, each sticker offers a unique touch, transforming your headwear into a canvas for self-expression.

Whether you're jazzing up a classic baseball cap or customizing a cozy beanie, these stickers invite you to make a statement and showcase your individual style.

FLOCKING

FLOCKING

Flocking is a unique heat transfer vinyl that gives your design an added dimension, given its raised, soft and textured suede/velvet feel. Flocking is cost effective and can be heat transferred onto any headwear of your choice.

- Flocking adds a tactile dimension to your branding, making it stand out.
- Flocked materials often have a distinctive, velvety appearance that can enhance the visual appeal of branded headwear.
- The tactile nature of flocking can be associated with quality and luxury.

SCREEN PRINT

SCREEN PRINT

Screen printing on a cap is a process that uses a screen to transfer ink onto the fabric, creating detailed and vibrant designs. It's a durable method for customizing caps with graphics, logos, and text, making it a popular choice. We only screen print on panels not on made up caps.

***DISCLAIMER:** We only screen print on panels not on made up caps.

- Available in stitch applied simple shapes, or heat applied complex shapes.
